And more others..

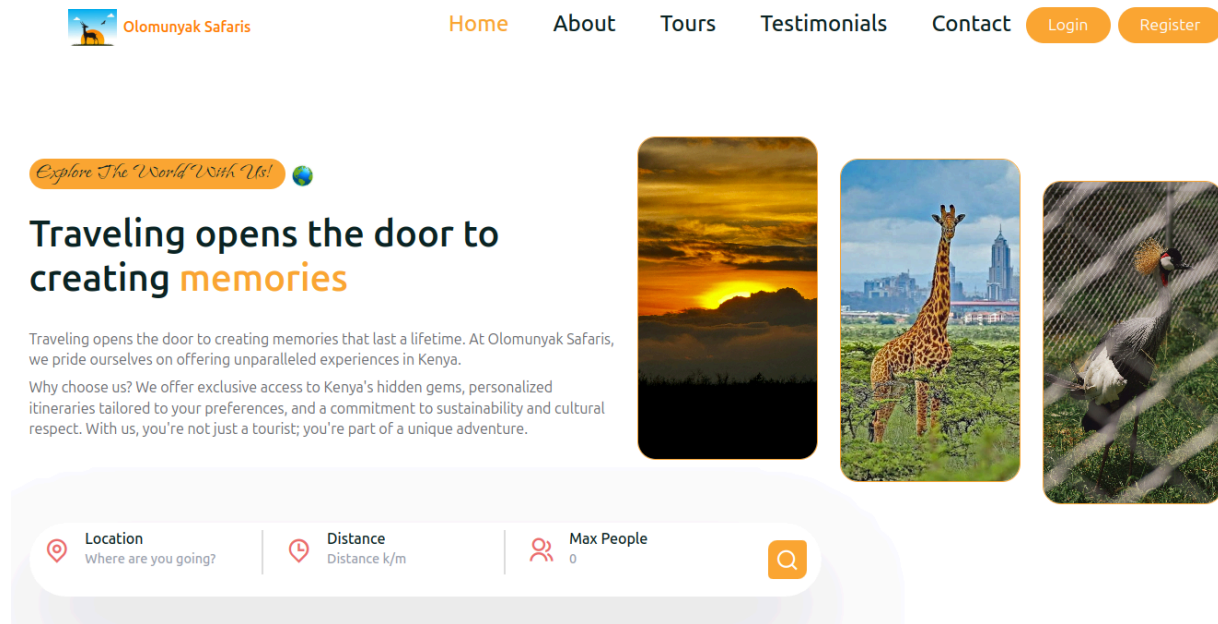

SAMPLE UI of Applications I Have Worked On

Here are some UI screenshots of apps I have worked on, some of them hosted on my vercel and github account. As I share the items below I would like to mention there are more.

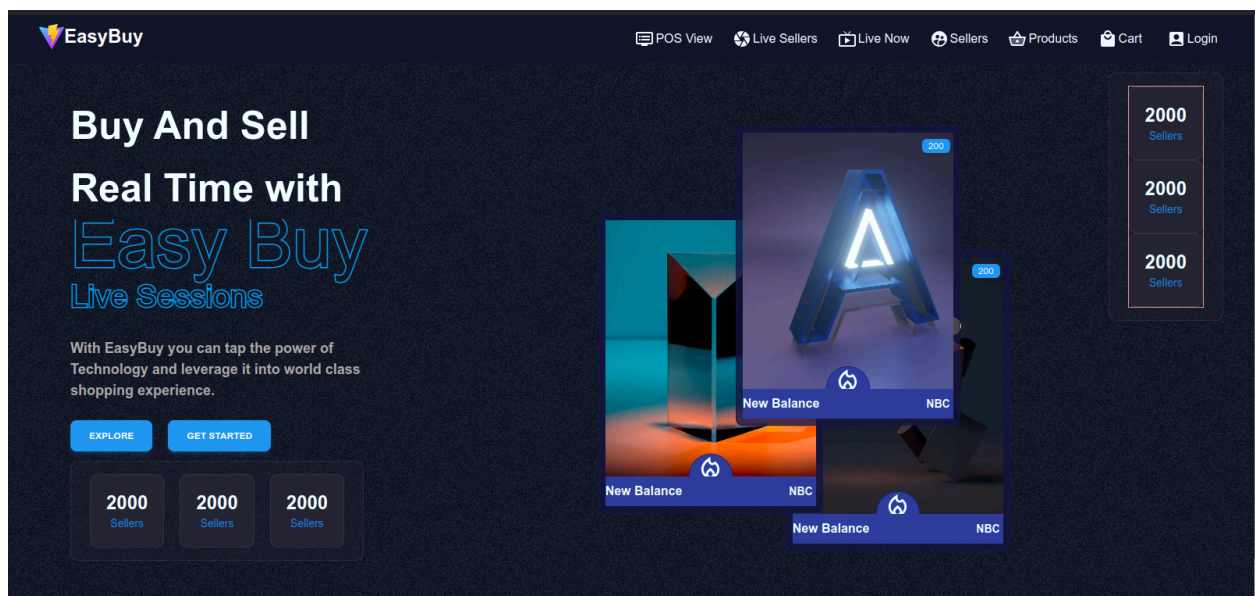

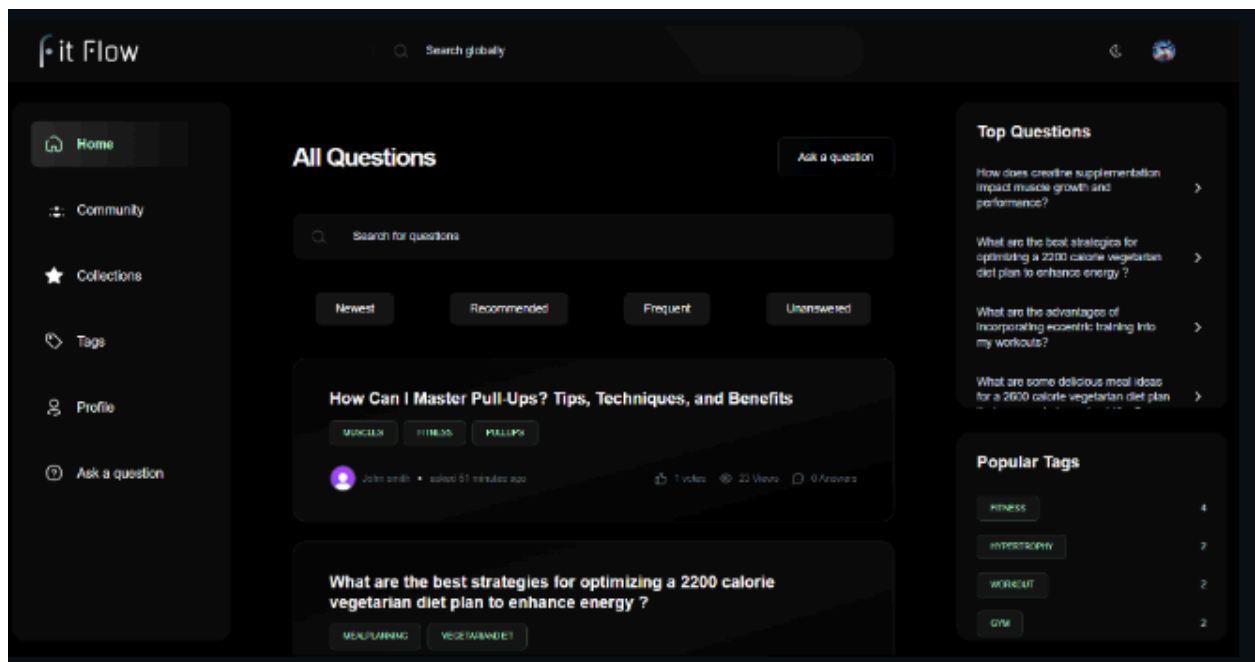

Here's some screenshots from an app I created for a journaling app using react native. The link to the github profile is <https://github.com/james-mumo/PenWise-Journaling-App>

Here is a link <https://olomunyak-safaris.vercel.app/home> to a page about a safari company called Olomunyak I created for them.

A social media like app for gym users having online community
